 - A project is on foot among numerous New York ladies for forming an insurance company having only women for officers, agents and policy holders. The wives of eminent merchants and financiers, several well-known literary ladies, and some of the foremost names in general society, are already on the list of those deeply interested. They have matured their plan with care, and a circular will be issued inviting the co-operation of women throughout the country, and subscriptions to the capital stock of a " mixed " company, but one in which all the profits, beyond legal in terest on the capital, are to be returned to the policy-holders. By employing women as agents and clerks, and allowing low commissions, not to exceed five per cent, they expect to make large savings above any company now existing.

- A CREAT REMEDY! Such's California Asthma Cure THO THE PUBLIC.-For the past two years To THE PUBLIC.—For the past two years I have been subject to severe coughing spells, especially in the morning, as soon as I would awake. This cough at last terminated in a most severe attack of asthmas, it is being a disease hereditary to our family. Last August, 1872, I was sched with a most severe stack of asthma, I coughed so much that it seemed to take away all strength. I could cat nothing without its giving me severe pain in the chest and image. I called in a decion-took his medicine and to no purpose. I was recommended to go into a warmer climate, and I went to San Jose, but change of climate had no effect, and when I left San Jose to I never expected to recover. I finally tried this remedy, which gave such rolled at once that I continued taking and it effected a complete and radical cure. I am now as hale and hearty as I ever was in my life. I have recommended it to others, and it invariably produced the same happy results. I now recommend it to the public, because I believe, as a remedy for astima, it has no equal.
